**Please do not bring television sets, kettles, heaters or Certificate 18 DVDs .
All electrical equipment brought into school must comply with relevant European legislation (i.e. have a CE mark) – please see Health & Safety – Control of Electrical Equipment**

All personal clothing, bedding and towels, etc, should be named with **sew-on name tapes**.
It is best to bring clothing that can be machine washed and tumble-dried.

Please see important notes overleaf

Storage

Please note that the storage space allocated to each student is limited, although reasonable. You are advised to pack only one medium-sized suitcase of possessions, and that your total baggage weight should not exceed 20kg, including hand luggage. Storage during the holidays is very limited and we can only offer each student one archive box (about the size of a filing cabinet drawer) to keep essential stores at school over the summer holidays.

Valuables

Mobile phones, MP3 players, handheld games consoles, laptops and other high value items may be brought, but please remember to provide a padlock and a spare key so that these can be locked away safely when not in use. You are advised to make sure that all such items are clearly labelled with the owner's name. The school does not carry insurance for the theft or loss of students' personal valuables.

Cash and Wallets/Purses

Students are not expected to hold large amounts of cash in their bedrooms, and for day-to-day use a maximum of £5 should be sufficient. The house staff can look after credit cards, passports and larger amounts of cash and students can have access to these whenever needed.

Imported Food

It is natural for students to want to bring a few reminders of home with them, but York has several specialist supermarkets selling imported stock from Hong Kong, Thailand, India and Korea. It may be much easier to buy these things here, rather than pack the same products in your son's/daughter's luggage.
